

REPORTING REQUIREMENTS

THE DEPARTMENT OF HUMAN RESOURCES IS SUPPLYING REPORTS AND STATISTICS ON WELFARE REFORM TO FULFILL THE REQUIREMENTS OF SENATE BILL 104.

FROM SENATE BILL 104:

“[The department shall] publish an annual report and such interim reports as may be necessary. The annual report and such interim reports shall be provided to the Governor and members of the General Assembly and contain the following:

- A. The total TANF caseload count;
- B. Quarterly and annual TANF reports, in full, prepared for submission to the federal government;
- C. The percentage of the TANF caseload and the number of individuals given a hardship exemption from the lifetime limit on cash assistance and a categorization for such exemption;
- D. The number of individuals who received transportation assistance and the cost of such assistance;
- E. The number of individuals who received diversionary assistance in order to prevent their requiring TANF assistance and the categories of such diversionary assistance, and job acceptance and retention statistics;
- F. The number of individuals denied assistance due to a serious violent felony conviction;
- G. The number of mothers under 19 years of age who received assistance and their percentage of the total TANF caseload;
- H. Number of children receiving subsidized child care and the total and average per recipient cost per child;
- I. Data on teen pregnancy prevention;
- J. The number of families sanctioned;
- K. The number of legal immigrants receiving TANF benefits by category of immigration status;
- L. The number of families no longer eligible because of time limits;
- M. Follow-up information on job retention and earnings; and
- N. An evaluation of the effect of Code Section 49-4-186 on the number of births to TANF recipient families.

The information required under this paragraph shall be provided on a county-by-county basis where feasible.

- Prevent teen pregnancies; and
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work and job training participation rates for recipients and enacted time limits for the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its TANF program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive its share of the TANF block grant. The first TANF checks were issued on January 1, 1997.

In past years, the most important aspect of a caseworker's job was issuing welfare benefits. With the 1996 introduction of WorkFirst! the emphasis shifted to helping recipients find work. During SFY 2005 and 2006, Georgia has focused on training the case managers (formerly called case workers) to assist TANF recipients in maintaining employment as well as seeking career advancement. Customers are not just expected to get a job but to keep the job, seek advancement and earn enough money to leave the welfare rolls. As a result, our TANF caseloads are greatly reduced.

New Developments

In October 2004, Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focuses on 3 elements: (1) Education-TANF Clients are educated at the point of application on all the goals and requirements of the TANF program. (2) Engagement-TANF clients with a work requirement are engaged in work activities within 7 days of the approval of their application. (3) Monitoring-TANF clients are monitored consistently and frequently to ensure adherence to program requirements. This concept yielded a significant decrease in the number of Total TANF Cases, in particular the number of Adult Cases on TANF. In SFY07, the monthly average of adult cases was 4,080.

In April 2006, Georgia took TANF = Work Now a step further by focusing on values and beliefs that under gird our work and assist in strengthening Georgia's families. New policies were implemented and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

- Welfare is not good enough for any family.
- Government cannot and should not take the place of family.

TANF CASELOADS

From SFY 1995 to 2007

In SFY 1997 Georgia had 114,154 cases on its TANF rolls. We are happy to report that as of June 2007, Georgia had 24,169 total TANF cases. This represents a 77% reduction in our rolls, over the past ten years.

Work Supports

In addition to partnerships with other agencies, the availability of work supports was critical to the success of TANF self-sufficiency efforts. In order to secure and maintain employment, many families required assistance with transportation, childcare, and medical expenses, as well as assistance in obtaining child support.

In SFY 2006, Georgia implemented new policies, which provided its TANF recipients with two new work support services. They were Employment Intervention Services (EIS) and Transitional Support Services (TSS). EIS is non-recurrent, short-term assistance that is equivalent to four times the maximum grant amount for the AU size. The availability of the EIS must be discussed with all clients at application. EIS is available only once in a client's lifetime. TSS assistance provides transportation, childcare and various incidentals (occupational licensing fees, special work boots, clothing, tools, etc.) to allow TANF applicants and recipients to accept and/or maintain employment. Applicants who are employed or become employed but remain eligible for TANF cash assistance have an option to choose between EIS or TSS. They cannot receive both. TSS is available only once per 24-calendar-month period.

incidentals; while the TSS provides transportation, childcare and various incidentals needed to maintain employment; and the job coaches provide support, information and monitoring that will allow clients an opportunity to remain steadily employed and achieve job enhancement skills that may lead to career advancement. The Work Support Program is available to former TANF families for a period of twelve (12) months and twice in their lifetime receipt of TANF.

WSP

The Work Support Payments are paid through a two-tiered process:

- During the first six months, the former TANF family can receive a cash supplement of \$200.00 per month. The family will also be eligible to receive transitional support services for this initial six-month period.
- During the second six months, the former TANF family can receive a cash supplement of \$100.00 per month. The family will no longer be eligible to receive transitional support services during this time.

The AU that remains eligible for a reduced TANF check must be given an option to choose between TANF and the WSP.

Transportation

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. GDHR/DFCS offers two transportation work supports options: direct payment to applicants and clients and transportation services through GDHR's Consolidated Transportation System. Although funds were available for transportation expenses, transportation services were not readily available, particularly in rural areas. In SFY 2000, GDHR/DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 00 to \$8,732,189 in SFY 2007. TANF funds paid directly to applicants and clients totaled \$1,865,094 in SFY 2007.

Childcare

Affordable, quality childcare was also essential to the success of individuals going to work. The number of payments for children in subsidized childcare increased from approximately 58,099 per month in SFY 1997 to average 100,828 per month in SFY 2007. In addition, expenditures in the program increased from \$115,999,169 in SFY 97 to \$190,608,882 in SFY 2007. Childcare continues to be one of the largest programs managed by caseworkers at the county level.

Medicaid

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of Transitional Medical Assistance (TMA) provides necessary medical coverage for families who become ineligible for LIM as a result of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. Currently 579,952 Georgia families receive Medicaid through LIM, TMA, and RSM. This was in June of 2007.

Child Support

Insufficient child support prevented many single parents from attaining economic self-sufficiency. Increased collections by the Child Support Enforcement (CSE) program are helping families receive more of the child support owed to them.

Increasing Success in Collecting Child Support

Additionally, Georgia's Fatherhood Initiative has been expanded throughout the state. The Department of Technical and Adult Education (DTAE) has taken the lead in this

Hardship Waivers

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are now three hardship criteria for case managers to use to evaluate each family's situation.

1. A family member is a victim of domestic violence or has been threatened.
2. The family has an open child protective services case.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

Other forms of work supports, including Food Stamps, Medicaid, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has decreased.

In December 2001 yet another milestone in the TANF program was reached when 311 Georgia TANF recipients reached the federally imposed 60-month TANF lifetime limit. Of these 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2004, there were 1,102 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. In June of 2006, 49 families received an extension and currently in June 2007, Georgia has only 19 families who are receiving a hardship extension.

- 8,957 Health and Community referrals

In SFY 2007, these centers provided adolescent public health services, health education programs, and support services to 37,353 youth and their families. The ages of the youth served were: 10-14 (15,391), 15- 17 (13,856), and 18-19 (8,106). The services provided were:

- 37,879 Comprehensive health services
- 14,441 Individual health screenings
- 1,805 Well Child check-ups and
- 6,053 Health and Community referrals

Georgia's Teen Center prevention and education programs are based on youth development principles and use best practice approaches to promote academic achievement, healthy self-esteem, and life skills training among Georgia's youth. Collaboration with parents, local agencies, and community partners, support this initiative by serving on teen center advisory councils, serving as volunteers, providing training, and quality assurance. We've proven that we can make a difference in reducing teen pregnancy rates. If our state is able to sustain our progress, we will not only improve the well being of our children, families and communities, but we will also reduce the burden on taxpayers.

More information about *Births to Teenagers in Georgia* is available at <http://dhr.georgia.gov> (click About Us, Fact sheet index). For more information about Georgia's Adolescent Health and Youth Development programs, call 404-657-8377 or visit <http://health.state.ga.us/programs/adolescent/>. To access teen pregnancy rates by health district or county for years 1994 through 2004, visit the OASIS (Online Analytical Statistical Information System) web query tool at <http://oasis.state.ga.us/oasis/qryMCH.aspx>.

DHR Youth Initiative

In November 2005 the Department launched the Youth Initiative in order to expand out-of-school services available to school age youth. They recognized that youth development practices delivered in after school and summer program settings can play a critical role in motivating youth to achieve success not only in schools, but also in their personal lives. These out of school services also contribute to our efforts in reducing teen pregnancy.

In SFY '06 over \$13 million dollars in TANF and state funding were used to expand summer and afterschool programs for children ages 6-19. Funds were distributed to community-based organizations and public schools. The awards ranged from \$28,000 to \$800,000 to over \$6 million for the GA Alliance of Boys and Girls Clubs, Inc. statewide. Through a pilot program with the Department's Division of Mental Health, 5,300 youth people with severe emotional difficulty and behavior disorders took part in

B. Quarterly and Annual TANF Reports, in Full, Prepared for Submission for the Federal Government

Reports submitted to the federal government during the State Fiscal Year include:

ACF-196 Temporary Assistance to Needy Families- Financial Report

ACF-199 TANF Data Report

TANF-ACF-DI-97-6 dated September 30, 1997 requires a computerized database containing disaggregated case and client record information, as specified in Section 411(a) of Public Law 104-193, "The Personal Responsibility and Work Opportunity Reconciliation Act at 1996." No Aggregate paper reports are required.

**E. The Number of Individuals Who
Received Diversionary Assistance in Order to
Prevent Their Requiring TANF Assistance
And the Categories and Cost of
Such Diversionary Assistance and
Job Acceptance and Retention Statistics**

Note: A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
